

## Personal Data Form

United States District Court, Central District of California, Second Amended General Order No. 20-04 indicates:

3. The defendant must report to the probation office as instructed by the court or probation officer;
6. The defendant must reside at a location approved by the probation officer and must notify the probation officer at least 10 days before any anticipated change or within 72 hours of an unanticipated change in residence or persons living in defendant's residence;
8. The defendant must work at a lawful occupation unless excused by the probation officer for schooling, training, or other acceptable reasons and must notify the probation officer at least ten days before any change in employment or within 72 hours of an unanticipated change.

I understand the Probation Office has determined I do not have to submit monthly supervision reports at this time. As such, I declare the following information is accurate and I will update the Probation Office if anything changes, as ordered by the Court. I understand that failing to report changes may result in the Probation Office seeking Court intervention, which may include requesting a bench warrant, if the Probation Office is unable to locate me.
