

United States Pretrial Services

Internship / Volunteer Program

MISSION

The internship program serves to broaden the United States Pretrial Services Agency's commitment to providing the highest quality service and products to the United States District Court through investigations and leading the way in community supervision and safety.

U.S. Pretrial Services extends its commitment to servicing the community by selecting col-

lege and university students to serve in non-compensated student intern positions within our organization.

U.S. Pretrial Services provides internship opportunities throughout the year. Internships provide unique opportunities for students to increase their knowledge of the issues involving the federal criminal justice system. It is our mission to provide every intern with a sound foundation and understanding of U.S. Pretrial Services and the criminal justice system as a whole.

FUNCTION

The intern will be exposed to a broad overview of the U.S. Pretrial Services agency, and will be expected to complete several facets of the U.S. Pretrial Services Officer functions. Each intern will be assigned to a U.S. Pretrial Services Officer or Supervisor who will mentor the intern throughout the internship term.
